Subject: LSP Superfund Site - Rogue Tank
Attachments: EdgeboroKeeganPermits (3).pdf

Jon,
EHS Support, on behalf of Ashland, is making arrangements to have the Rogue Tank cut into pieces and properly disposed of. If you remember, the tank had been on the LCP Superfund Site, however during Superstorm Sandy it floated off its base, over the fence, and onto the Phillips 66 property. We are working with Code Environmental Services, Inc. for the tanks removal and disposal. The tank will be cut into pieces on the Phillips 66 site by Simpson & Brown, a contractor cleared to work on the Phillips 66 facility.
Because the tank is located in Union County, according to NJ waste flow regs, solid waste from Union County is sent to Keegan Landfill in Kearny, NJ. A copy of their permit is attached. If it is not possible to get it approved into Keegan Landfill the second option would be Edgeboro Landfill. A copy of their permit is attached.
Please let me know if Keegan and Edgeboro landfills are acceptable to the EPA. In addition, I am anticipating the need for signatures on some of the disposal paperwork. I am assuming I can send that to you for signature.
Thanks,

Carrie McGowan
